*The Voice of the Industry*

# PROJECT MANAGER

IN CIVIL CONSTRUCTION

Join a growing and rewarding industry,  
with excellent income potential.

## ON THE FRONTLINE

Civil Project Managers (sometimes known as Construction Project Managers) oversee large engineering and civil construction projects.

They ensure the timely and cost-effective delivery of construction projects, and are involved in all aspects of civil construction projects.

# PROJECT MANAGER

## What will I be doing?

Civil Project Managers get to meet many interesting people and can work on an exciting array of projects both locally and internationally.

You will be at the front line of building the cities, towns and infrastructure of the future.

You will supervise subcontractors, attend project progress meetings and monitor compliance with building and safety codes and regulations.

You will:

- negotiate the contracts of subcontractors
- determine operational compliance with regulations or standards
- communicate with inspectors and architects
- develop operating strategies, plans or procedures
- meet with construction managers
- manage project risk
- coordinate time lines.
- develop environmental remediation or protection plans.
- review land surveys, assess project estimates and budgets, inspect existing structures, create design plans and review potential safety issues
- generate reports focusing on project progress, job status and costs
- prepare operational budgets for green energy or other green operations.

## Skill level needed (out of 10)

- Planning and organising 9 High
- Numeracy 6 Intermediate
- Digital engagement 6 Intermediate
- Teamwork 7 Intermediate
- Writing 7 Intermediate
- Reading 7 Intermediate
- Learning 7 Intermediate
- Problem solving 7 Intermediate
- Oral communication 7 Intermediate
- Initiative and innovation 7 Intermediate

Get started with a CCF Tasmania pre-employment course. Find out more on our website.

## How to start your career in Civil

You can start out as an entry level Apprentice employee in civil construction, combined with study, do a diploma at Tafe, or a university degree in civil engineering with project leadership.

There are many great pathways into this career and the sky is the limit.
